

Kuleshov Effect Assignment

Create your own Kuleshov effect demonstration by putting together 4 clips . The 'object' should be a highly motivating object/subject that elicits a strong positive, negative, emotional and/or physiological responses. The clips should be:

Scene	Criteria	Description/Location
Scene 1	Medium or close up of a person looking at the camera with no or subtle emotion	
Scene 2	Object of emotional response (happiness, love, grief, anger, hunger, etc.)	
Scene 3	Medium or close up of a person looking at the camera with no or subtle emotion (repeated)	
Scene 4	Object of emotional response (happiness, love, grief, anger, hunger, etc.)	
Scene 5	Medium or close up of a person looking at the camera with no or subtle emotion (repeated)	
Scene 6	Object of emotional response (happiness, love, grief, anger, hunger, etc.)	
Scene 7	Medium or close up of a person looking at the camera with no or subtle emotion (repeated)	

1. Film one medium or close-up shot of a person looking at the camera with no or subtle emotion
2. Film an object of emotional response
3. Film another object of emotional response
4. Film a third object of emotional response
